

# SPECIAL VALVES

## VALVES FOR METALLURGICAL PRODUCTION

Haberman Aurum Pumpen GmbH can also offer a wide range of special valves for metallurgical production such as: cold, hotblast valves, CHOPT valves, sector valves of various designs (rotary, linear, open and closed TYPE), double-disk wedge gate valves, two-, three-lever valves, throttle units. Today, the maximum bore supplied by us is 3000 mm, but we can produce fittings up to DN 4000.

**HABERMANN AURUM  
PUMPEN**

**GOGGLE VALVE** DN 3000

**GROUP EXPANDING VALVE**  
DN 2700

**HOT BLAST VALVE**  
DN 1100/1600

**DOUBLE-DISK VALVE** DN 1500

**SPECIAL VALVES**

**COLD BLAST VALVE** DN 1200
